iPP 300 Series Pin Pad

Highest Security Levels

The iPP350 meets the latest hardware and software security requirements. PCI-PTS 2.x and 3.x certified, the iPP350 ensures secure data and application management and enables highly secured transactions. iPP350 also complies with SRED and Open protocol modules. The optional PIN privacy shield guarantees confidentiality of PIN entry.

All Payment Options

Offering EMV Chip & PIN, MagStripe and Contactless, the iPP350 also supports new use cases such as NFC, loyalty programs, couponing & wallets and QR codes.

Designed for Retail

Robust for intensive use and optimized for fast checkout, the iPP350 is designed to meet all retail environment needs. Very compact, the iPP350 takes up minimum counter space and fits perfectly in customer's hand. Large 16-key backlit keypad, large LCD display and function keys allow quick and simple access to different applications providing day to day convenience and comfort

Flexible Communication and Connectivity

The iPP350 connects to an ECR, a POS or a PC via direct connections such as Ethernet, RS232 or USB. The Plug & Play iPP350 is equipped with a single multipoint mono connector cable for easy integration.

Color Display

Brand promotion is empowered by a color graphic display, software customization and various possibilities to personalize hardware (top casing or lens).
